

Make My Money Matter

# THE CHARTER

**There's £2.7 trillion in UK pensions,  
and that money is owned by all of us.**

With a warming planet and a natural environment under threat, the decisions we make on how this money is invested will impact on future generations for decades to come.

By having a green pension we can ensure the billions of pounds invested each year through our organisations' pensions plays a critical role in accelerating the race to a green economy.

That's why we're committing to unlocking the power of our pensions to build a cleaner, healthier planet for our staff, our customers, and our families.

By signing up to this charter, we collectively commit to turbocharging the impact of our pensions by:

➔ **Calling on the pensions industry to agree net zero targets for all investments.**

➔ **Engaging with our trustees and pension providers to explore how we can align our staff pension scheme to net zero before 2050.**

The science is clear – the time for urgent action is now. If all companies align their pensions with net zero targets, we can ensure the billions invested each year through our pensions help tackle the climate crisis, not fuel the fire.

We urge all UK employers to join us in launching this green pensions movement, ensuring our money helps build a healthy planet.

**After all, what's the point in saving  
for retirement in a world on fire?**

Make My Money Matter

# WHAT YOU CAN DO TO JOIN THE GREEN PENSIONS MOVEMENT

## Sign the Green Pensions Charter

The Charter asks organisations to commit to work towards greening their default and defined benefit pensions, by aligning them with net zero targets. It also calls on the pensions industry to commit to a net zero future.

Greening your pension is a journey, so signing up to the Charter is a commitment to embark on it. We will share with you with tools and resources to support you in this journey.

## Amplify the campaign

Be a green pensions advocate and help get others on board by promoting the campaign through your channels. Throughout the year, we will share our campaigns, events and assets to amplify this campaign so we will ask you for your support at particular times to spread the word as much as possible.

## Join the Green Pensions movement

Join the Green Pensions movement  
We will check in to track progress on greening your pensions every 6 months and help you monitor progress against your provider's commitments to net zero.

Check our [Green Pensions Guide](#) to navigate the planet-saving world of pensions!

## Empower your employees

Your staff can also have a say on how to make their money matter. Encourage your employees to take Make My Money Matter's [21X Challenge](#).
